## POLITICAL POINTS.

The Arkansas Election. LITTLE ROCK, Ark., Sept. 8.—Partial returns from one-half the counties indicate no changes from estimates telegraphed Monday night. Combinations between Republican and other elements affected the Democratic ticket in saveral counties and Democratic ticket in several counties and defeated local Democratic tickets wholly or in part. The Democrats claim this county by one thousand majority. The State Labor ticket carried White and Neweds counties and will receive upsheld. Nevada counties and will receive probably four or five thousand votes in the state, drawn about equally from Democrats and Republicans. The legislature is largely Democratic. here this morning is the largest held in this state in many years. Eagene A. Clapp, of Boston, was made permanent chairman. Mr. Clapp, on taking the chair, delivered a long address.

The resolutions adopted declare that the liquor traffic is the greatest instrumentality of corruption in our politics; that it paralyzes our industries, is a blight upon our social life; is a destroyer of homes and a curse everywhere: the resolutions recombly reached the corn crop at this time. Correspondents differ widely in their estimates, but enough is known to warrant the belief that the product will not fall below our July estimate (120,000,000 bushels) and may possibly reach 140,000,000 bushels. curse everywhere; the resolutions recommend that the act of selling or dealing in liquors should be punished by disfranchisement; they endorse the work done by bushels. chisement; they endorse the work done by the Woman's Christian Temperance union and favor the submission to the people of the question of a constitutional amendment in behalf of women's suffrage.

BURLINGTON, Vt., Sept. 8.—Two hundred and five out of 240 towns have made dred and five out of 240 towns have made returns and the result shows that Edmunds is assured of re-election by an overwhelming majority. One hundred and sixty-eight towns elected Edmunds representative, 12 unpledged Republicans, six anti-Edmunds Democrats. Of the remaining thirty-five towns twenty-five will probably elect Edmunds men. The senate will be unanimous for Edmunds, Franklin county electing the only Democratic Senator, who is for Edmunds. The Republican state ticket will be elected The Republican state ticket will be elected by 12,000 to 18,000 majority. The Republicans have elected all their county ticket. The report of the board of trustees re-The report of the board of trustees reviews the prohibition question in Kansas and Iowa and attempts at legislation on the subject elsewhere. A joint report of the vigilance and publication committees was made by Mr. Henry Clauson of New York. It is stated that during the past year the publication committee, in conjunctive to the problem of the past year the publication committee, in conjunctive to the publication committee and the problem of the publication committee. year the publication committee, in conjunc-tion with the vigilance committee, caused to be prepared, printed and distributed an aggregate of 4,500 copies of addresses and essays intended to influence public opinion favorably to the brewers' interests.

The report adds: During the past year many applications for documents have been received from persons living in Geor-gia and Virginia. From our correspond-ents in these states we learn that the suc-

ents in these states we learn that the suc-cess attending the prohibitory movements is mainly due to a desire on the part of the ruling party (Democratic) to keep the col-ored people within certain moral bounds. It is claimed that for exclusively the

It is claimed that for exclusively the white population, southern Democrats would not dream of passing such laws. Discussion of the question on the basis of personal and industrial liberty was entirely impossible because advocates of the laws invariably answered all such arguments by claiming that these measures are intended to restrain only "black men." Such logic is beyond our comprehension. To us it seems that the greater the depravity of the population, the greater also the need of control. Prohibition and local option do away with all control, leaving the liquor practically as free as it would be in the absence of any laws on the subject, but the absence of any laws on the subject, but far more dangerous to society on account of the immorality inseparably connected with the constant recurrence of law break-

organized counties except Riley and Ham ilton. The returns received within the last thirty days make no material change in The most interesting part of the report the area of crops as shown in our report of last month. Dry and hot weather has been the rule in the eastern half of the state, readvisory to the committee is that relating to alleged adulteration of malt liquors. The report goes into a discussion of the tempersulting in a short crop. In the west more rain has fallen during the summer months and crops promise a fair yield. From the best information now at hand I would esance school book question which it treats with some vigor. Through the influence, it says, of the prohibition element compulsory temperance instruction, beginning in 1885, was introduced in New Hampshire, Vermont, Michigan, New York, Rhode Island, and in 1885 Pennsylvania, Massa-chusetts, Oregon, Alabama, Maine, Kansas, Nebraska, Wisconsin, Missouri and North Carolina. The conclusion arrived at from a thorough review of the proceedings and carepresent time the resultant evil is not so great as former information scemed to in dicate. Generally speaking, errors were not so glaring as to demand vigorons action. Many of the schools have not fully complied with the law in its spirit, while others tacitly ignored the provisions of the act. It would not be safe, however, to alter.

We have come to shed light through Canada and the states on the misunderstood position of Irish loyalists. We represent the Ulster loyalist anti-repeal union, an organization composed of different creeds and elements. Our object is the maintenance of the legislative union in the United Kingdom, and we do not come as deputation to any party or section. Mr. Parnell is a landlord himself, having property in county Wicklowe, bringing in a rental of 1,300 pounds a year. About five years ago hepresented a petition for the sale of this property, and the court in order to pay off the encumbrances amounting to 31,00 pounds ordered the sale. After paying his encumbrances in full, Mr. Parnell netted 55,000 pounds. Though his party enunciated the pounds. Though his party enunciated the decrease the local at all electronic and the decrease the local at all electronic at all electroni be owners, he has never proposed to put manufacturers. Unionists are not opposed to home rule so far as it means the extension of the principles of local government on lines that will be applicable to other parts of the United kingdom, but we will oppose dismemberment of the kingdom. This, we believe is the aim of the national lengue.

his bill on the 16th inst., on condition that the Parnellites offer no obstruction prior to the passing of the whole of the estimates.

The Parnellites, aiming to retain control of the government, insist upon the consideration of Mr. Parnell's bill before the estimates. The probable issue will be that Mr. Parnell will accept Lord Randolph's offer knowing that the defeat of his bill is certain. Mr. Parnell has sent a draft of his measure to Mr. Gladstone. The first clause provides that leaseholders may apply to the court to fix judicial rent, the secondhat tenants whose rents were fixed a year ago tenants whose rents were fixed a year ago tenants whose rents were fixed a year ago may apply to the court for a revaluation; and third, that the court, pending decision on application may suspend an ejectment on the payment of such proportion of the rent as the court may decide to be proper.
